

→ FULL HOUSE RULES ←

FOR

PICTURE PERFECT

For those who think no party can be big enough!

Do you want to combine several expansions? The following rules will tell you how. Just don't blame us if the party gets a little crazy!

→ STARS ARE WELCOME ANYWHERE ←

The Movie Stars expansion can be freely combined with either the Pickpocket or Sherlock game modes.

→ DEADLY VALUABLES ←

For an extra pickpocket challenge, combine with the Sherlock mode using the exchange cards from the Sherlock expansion. The valuables will be harder to find, so to compensate players can use 1 of their exchange card questions to ask another player "Where are your valuables?". After the other players close their eyes, the asked player must then point to either a player or to the middle (wherever the envelope with their valuables card is). Only the location is pointed out, not the specific guest/envelope.

→ A FEW MORE GUESTS ←

To play with up to 3 extra guests: Fill all 17 envelopes with preference cards as normal.

In step 3 of setup: Put the normal amount of envelopes (specified in step 3 of setup) in the middle of the table. Divide the remaining envelopes evenly between the players. Put any left over envelopes (that do not divide evenly) in the middle as well.

→ EVEN MORE GUESTS ←

Play with up to 20 guests with the following additional changes:

- **2-4 players:** After step 1 each round, each player gives 1 of their envelopes to each other player.
- **5-6 players:** During any exchange in which you may choose whether to do 1 or 2 envelopes - you **MUST** always choose 2.

→ TOO MANY GUESTS ←

To play with 23 guests, use the same rules as with 20. Play 1 extra round by randomly adding 1 additional exchange card. This extra card should not be an auction.
